Are you and your practice fully insured? What happens if your practice has to close (temporarily or permanently) due to an emergency in your office; fire, illness or death, or just ... a pandemic?!

Or what happens when you stop practicing due to an injury? Or when you retire? Are you covered for losses or litigation? Do you carry tail insurance? Practice interruption insurance? How can you protect your current patients? This discussion, presented by TDIC, will make sure that you know all options that you should be considering if you own a practice OR if you are working in a practice, including the following common insurance tripwires for associates and practice owners.
